1	C12-118	Washington County	Washington	\$ 21,000	\$ 21,000	Prevent Drinking Water Contamination: Prioritize and Seal Abandoned Wells	Washington County residents rely on groundwater for 100% of their drinking water. To protect groundwater, the county proposes to seal abandoned wells that pose the greatest threat of contamination to a public drinking water supply by specifically targeting abandoned wells in DWSMA's or in areas of known contamination.	36.8	21.3	19.1	14.1	91.3
2	C12-173	Mille Lacs Soil and Water Conservation District	Mille Lacs	\$ 43,100	\$ 43,100	Groundwater Protection of Highly Vulnerable Drinking Water - Sealing Abandoned Wells	Mille Lacs County residents rely on groundwater for 100% of their drinking water. As part of an effort to target sources of nitrate contamination in local groundwater, assistance will be provided to seal abandoned wells if they are 1) located specifically within drinking Water Management Safety Areas (DWSMAs), or 2) within the same aquifer and within one mile of a municipal community public water supply well, or 3) are a large diameter well located within an area identified as highly vulnerable to groundwater contamination within the local water plan.	35.9	21.4	18.5	12.7	88.5
3	C12-189	Rice County Environmental Services	Rice	\$ 10,900	\$ 10,900	Targeted Cost-Share Well Sealing in Rice County DWSMAs	The purpose of this project is to provide cost-share well sealing funds to target sealing of unused wells located in highly vulnerable areas within both the City of Faribault, and the City of Northfield's DWSMAs, and other vulnerable areas of Rice County.	33.6	19.0	17.3	13.0	82.9
4	C12-184	Yellow Medicine County	Yellow Medicine	\$ 8,500	\$ 8,500	Yellow Medicine County Abandoned Well Sealing	Yellow Medicine County will offer cost share to landowners to seal abandoned wells in an effort to protect the groundwater and our drinking water supply.	34.1	18.2	15.4	11.0	78.6
5	C12-75	Crow Wing County	Crow Wing	\$ 20,905	\$ 20,905	Establishment of a Well Sealing Program in Crow Wing County	Crow Wing County, in cooperation with the municipalities within the County, plans to establish a well sealing program. Priority will be given to wells located within the existing wellhead protection areas / drinking water supply management areas (DWSMAs).	31.8	18.0	16.4	11.7	77.9
6	C12-69	Mahnomen & Norman Soil and Water Conservation Districts	Mahnomen & Norman	\$ 13,720	\$ 13,720	Norman and Mahnomen County Well Sealing Project	In Norman and Mahnomen Counties under normal circumstances the surface water will not naturally degrade our deep groundwater resources, based on the Lower Red River Regional Hydrologic Assessment. Abandoned wells are the only contamination conduit to our deep groundwater resources. Sealing abandoned wells through cost share with landowners, will protect our groundwater resources from surface contamination.	30.0	18.0	14.5	10.9	73.5
7	C12-220	Martin County	Martin	\$ 10,250	\$ 10,250	Protecting Groundwater with Well Sealing in Martin County	Landowners that are removing a farmstead will be the first eligible for this well sealing grant. Also, abandoned wells in the middle of farm fields that have not been properly sealed will be a high priority.	30.9	16.9	14.0	11.1	72.9
8	C12-194	Big Stone Soil and Water Conservation District	Big Stone	\$ 6,200	\$ 6,200	Well sealing and management goals for Big Stone County.	One of the priorities of Big Stone County is to protect and preserve the county's water resources by closing and sealing off all existing un used wells in the county. This goal will be accomplished by receiving funds through the Clean Water Act to help with cost-share reimbursement fees to land owners of un used wells making it more encouraging or customers to seal their well(s).	30.5	15.8	13.0	9.9	69.2
9	C12-104	Hennepin County Department of Environmental Services	Hennepin	\$ 42,000	\$ 42,000	Hennepin County Cost-Sharing Well Sealing Program	The Well Sealing Program helps well applicant/owners offset the expenses associated with permanently sealing their well/s. Wells are sealed to protect groundwater and reduce the potential threat to the health and safety of Hennepin County residents posed by contaminated groundwater.	28.2	13.5	13.4	6.9	62.0
