

FY 2016 Community Partner Funding Recommendations

Row	ID	Grant Title	Grant Abstract	Applicant	County	Amount Requested	Amount Recommended	Total Score
1	C16-2382	Engaging Schools in Retrofit BMPs	The purpose of this project is to provide grant funding opportunities to schools for BMP retrofit projects that will intercept, treat and infiltrate or filter runoff that will reduce total phosphorus and total suspended solids loads to high priority water bodies within Ramsey Washington Metro Watershed District.	Ramsey-Washington Metro WD	Multiple	\$ 150,000	\$ 150,000	89
2	C16-6721	Beltrami SWCD Stormwater Community Partners Grant Program	The purpose of this project is to partner with citizen and non-profit groups to complete projects that will reduce stormwater runoff and retain water on the land. The majority of the projects will be in the Lake Bemidji lakedshed which has recently been identified in the WRAPs project as being on the verge of impaired for nutrients.	Beltrami SWCD	Beltrami	\$ 150,000	\$ 150,000	78
3	C16-2208	Lake Vermilion Community Partners	The purpose of this project is to work with lake and resort associations, chambers of commerce, and various community groups around Lake Vermillion to identify 3-6 projects with maximum public benefit. Potential projects include community rain gardens, native vegetative buffers and shoreline restorations that improve water quality by reducing stormwater runoff, cleaning stormwater before it is released to the lake.	St Louis, North SWCD	St. Louis	\$ 78,000	\$ 78,000	77
4	C16-2984	Long Lake Shore Rehabilitation and Stormwater Treatment	The purpose of this project is to provide a sub-grant to the Long Lake Improvement Association for project installations with an emphasis on bioengineering techniques, native plants and locating buffers/swales/rain gardens at points of concentrated overland flow.	Isanti SWCD	Isanti	\$ 25,000	\$ 25,000	75
