C12-254 - Accelerated Implementation

## Project Narrative

This project is a collaboration between Blue Earth and Watonwan County. The two counties will share information, ideas and resources as they complete mining reclamation and wetland management plans to include in their local water management plans and comprehensive land use plans. Master plans for mining reclamation and wetland management will be used as guidance for planning and zoning decisions and implementing water management priorities that will enhance water quality protection and restoration efforts.

### Proposed Outcomes:

- Data Collection , LiDAR, Models
- Community Engagement and Public Input
- Master Plans For Mining Reclamation
- Wetland Management Plan

### Actual Outcomes:

Project in Progress
