C12-228 - Accelerated Implementation

## Project Narrative

Mower County has completed the first phase of their county-wide imminent public health threat inventory and are currently in the process of phase two. This project will fund the third phase which will allow Mower County to inventory over 1,400 sites and remove an anticipated total of 230 imminent public health threats from discharging to local waters or to ground surface.

## Proposed Outcomes:

Mower County would review 1428 sites for Imminent Public Health Threats and require updating of septic system within 10 months when found.

## Actual Outcomes:

Project in Progress
